## Committee for Creationism in Education

October 9, 1975

Dr. Raymond O. Shelton, Superintendent  
Hillsboro County Public Schools  
P.O. Box #3408  
Tampa, Florida 33601

Dear Dr. Shelton:

As chairman of the Committee for Creationism in Education, I would like to have the privilege of explaining our objective involving an adjustment in education throughout the state.

We are promoting the use of a Biology textbook which shows creationism as a viable explanation of origins - "BIOLOGY: A Search for Order in Complexity". It is already in use as a resource book in Pinellas County High Schools, St. Petersburg Junior College libraries, as well as in many states.

I shall be grateful for the opportunity to be included on your agenda on November 4th if that date is suitable with you. If not, I could arrange to come on November 18th.

Under separate cover, I am sending you a copy of the biology textbook.

Sincerely,

C.E. Winslow, Chairman  
Committee for Creationism in Education  
6150 52nd Avenue North  
St. Petersburg, Florida 33709
